#### 4. SELECTION PROCESS

4.1 The Masters' program selection exam will consist of two steps:

(i) **written test in Portuguese**, of an eliminatory and classificatory nature, in the case of hearing applicants; and **filmed test in Libras**, of an eliminatory and classificatory nature, in the case of deaf applicants.

(ii) **analysis of pre-proposal**, of an eliminatory nature.

4.2 To take the tests, the applicants **must present a photo identification document**, without which they will not be able to take the tests.

4.3 The **written test** in Portuguese or **filmed in Libras** is composed of discursive questions about the language field and is elaborated based on the indicated bibliography.

4.4 Written or filmed in Libras, the test is composed of **2 general questions about Linguistics**. Applicants should show that they are able to solve linguistic problems and / or discuss issues pertaining to the language field drawing on the indicated bibliography. Each question will correspond to 50% of the total of the test.

4.5 Each of the questions on the test will be marked by two evaluators. The final grade of the question will be the result of the sum and division of the two grades awarded by the evaluators. The final grade of the test results from the sum of the final grades of each of the questions. In the event of a discrepancy between the two assessments, the test will be marked by a third evaluator, who will award the final grade based on his / her assessment and the preceding assessments.

4.6 The tests will be graded from zero to ten. The minimum passing grade is 7 (seven).
